

# Why BASF: Sampling

Gain the highest return on your PGMs with transparency and confidence.

[catalysts.basf.com/pgm](https://catalysts.basf.com/pgm)

## LOT WITNESSING

- Watch our sampling and assaying processes in action with BASF's Lot Witnessing program.
- See how our focus on accuracy and transparency combined with ISO accreditation makes a difference in the total return of your materials.

## REPRESENTATIVE SAMPLES

- Each lot is evaluated individually to determine best-fit sample preparation and provide superior accuracy compared to one-size-fits-all methods.
- Your materials are prepared and sampled using state-of-the-art instruments and methodology.

## LOT INTEGRITY

- Samples are homogenous and highly representative of the bulk.
- Your material is weighed at each step of the process.
- No weight is deducted for moisture picked up during sampling.

## CONTINUOUS INVESTMENT

- We are continually investing in our assets and people to optimize processes and improve quality control.

### ISO PGM ANALYTICAL ACCREDITATION

BASF is one of few refiners to employ ISO 17025/17043 accredited methods in our labs, adhering to an international standard of the competence of PGM determinations.

### SUSTAINABLE SOLUTIONS

BASF is proud to promote sustainable growth and environmental responsibility. We recognize the increasing importance of a circular economy and are in a unique position to support our partners with sustainable processes.

### ABOUT BASF'S CATALYSTS DIVISION

BASF's Catalysts division is the world's leading supplier of environmental and process catalysts. The group offers exceptional expertise in the development of technologies that protect the air we breathe, produce the fuels that power our world and ensure efficient production of a wide variety of chemicals, plastics and other products, including advanced battery materials. By leveraging our industry-leading R&D platforms, passion for innovation and deep knowledge of precious and base metals, BASF's Catalysts division develops unique, proprietary solutions that drive customer success.
